AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims.

Claims 1-46 (Canceled)

Claim 47 (Currently Amended): A risk care business system, comprising:
a computer, an information providing part comprising an input device, and a display screen comprising an output device, the computer processing information to control the display screen, the display screen comprising an oral disease risk improvement sheet, said sheet including a surface further comprising [[:]] a risk estimation part and a risk avoidance measure presentation part:

- (a) wherein said risk estimation part includes
 - a data gathering part that displays a current presence/absence of a plurality of risk factors and an answers section corresponding to the risk factors;
 - a judgement criteria part that stipulates an unequivocal correlation between the answers and preset risk values;
 - a risk judgement part provided with a judgement section for recording the risk values for the risk factors converted from the answers of the answers section and space for calculating an overall risk value by arithmetic; and
 - an overall risk display part provided with an overall risk judgement criteria section that unequivocally stipulates an overall risk allocated to one of a plurality of preset levels from the overall risk value, an overall risk display section that displays an overall risk showing a risk level of an examinee, and an explanation section that explains the risk level, and

- (b) wherein said risk avoidance measure presentation part includes
 - a risk avoidance measure display part in which are shown a necessity of re-examination and a time of re-examination;

Patent Application Serial No. 09/926,697

a guidance display section in which are displayed guidance contents for guiding lifestyle habits so as to reduce the risk, and a means tools display section in which are displayed tools effective for carrying out the risk improvement in accordance with a guidance of said guidance display section; and
an improvement possibility display part.

Claims 48-51 (Canceled)

Claim 52 (Currently Amended): The risk care business system as recited in claim [[51]]
47, further comprising:

examination means for implementing a question-based examination and an oral cavity examination as indicated by said risk improvement table on each test subject; and

calculating means for applying examination results to the risk estimation part of said risk improvement table, working out a risk value for each risk factor judged objectively, and calculating an overall risk value.

Claim 53 (New): The risk care business system as recited in claim 47, wherein the processing is performed according to a program stored on a non-transitory storage medium.

Claim 54 (New): The risk care business system as recited in claim 47, wherein the computer is coupled to a host second computer coupled to the explanation section and the guidance display section.
